Official Spokesman's Statement on the U. S. Missile Attack on Baghdad

The Government of India is against state-sponsored terrorism. We are ourselve victims of state-sponsored terrorism from across the border in the West. We support action against state-sponsored terrorism. On the other hand, we are concerned about the violation of national sovereignty. Such phenomena can affect peace and stability in the West Asian region, where assiduous efforts are on to further the peace process. We have sympathy for the people of Iraq and regret that the civilian population has suffered. We hope that all disputes will be settled peacefully without resort to force.
